

REMINGTON-DAVIS
Professional Clinical Research

Linking the Community of Today with the Healthcare of Tomorrow

Celebrating over 28 Years of Successful Clinical Trial Experience
Inpatient and Outpatient Studies

| <u>Studies:</u> | <u># of Studies:</u> | <u>Studies:</u> | <u># of Studies:</u> |
|--------------------------------------|----------------------|---------------------------------------|----------------------|
| Infectious Disease: | | Gastroenterology | |
| - Exacerbation of Chronic Bronchitis | 18 | - Erosive Esophagitis | 5 |
| - Influenza | 3 | - GERD | 14 |
| - Herpes Labialis | 3 | - IBS | 13 |
| - Community Acquired Pneumonia | 3 | - Ulcerative Colitis | 8 |
| - Sinusitis | 5 | - H. pylori | 1 |
| - Upper Respiratory Infection | 1 | - Crohn's Disease | 6 |
| - Community Acquired Pneumonia | 25 | - Idiopathic Constipation | 2 |
| - Skin and Soft Tissue Infection | 38 | - Chronic Constipation | 1 |
| - Nosocomial Pneumonia | 16 | | |
| - cUTI | 5 | Pain Management | |
| - Intra-abdominal Infection | 5 | - Osteoarthritis | 6 |
| - C. difficile Associated Diarrhea | 23 | - Migraine | 9 |
| - Endocarditis | 3 | - Opioid Induced Pain | 1 |
| - Diabetic Foot Ulcer | 2 | - Acute Ankle Sprain | 2 |
| - Fungal Infections | 4 | - Acute Low Back Pain | 2 |
| - Neutropenia | 6 | - Acute Muscle Spasm | 1 |
| - Influenza | 4 | - Opioid Induced Constipation | 4 |
| - C. difficile Vaccine | 2 | - Migraine Device | 1 |
| - Botulinum Vaccine | 2 | - Knee Replacement Device | 1 |
| - Staph Vaccine | 1 | | |
| | | Endocrinology | |
| Pulmonology | | - Diabetes Type 2 | 4 |
| - COPD | 62 | - Peripheral Vascular Disease | 1 |
| - Asthma | 8 | - Weight Loss | 1 |
| - Endobronchial Valve Device | 3 | - Diabetes Device | 3 |
| - Chronic Cough | 1 | - Severe Chronic Kidney Disease | 1 |
| - Acute Asthma Exacerbation | 1 | - Acute Pancreatitis | 1 |
| - Pulmonary Embolism | 6 | - Polycystic Kidney Disease | 2 |
| - SIRS | 4 | | |
| | | Vascular Medicine | |
| Critical Care | | - Acute Lower Extremity Native Artery | 1 |
| - Severe Sepsis | 46 | - Cardiovascular Disease | 2 |
| - Line Sepsis | 3 | - Peripheral Arterial Disease | 3 |
| - SIRS Shock | 6 | - Deep Vein Thrombosis | 7 |
| - Severe CAP | 3 | - Arterial Embolism - lower limb | 1 |
| - Severe Renal Impairment | 1 | | |
| | | Dermatology | |
| Cardiology | | - Erythropoietic Protoporphyrin (EPP) | 1 |
| - Hypertension | 9 | - Vitiligo | 1 |
| - Post Acute Myocardial Infarction | 1 | - Atopic Dermatitis | 2 |
| - Hypercholesterolemia | 3 | - Psoriasis | 1 |
| - Atrial Fibrillation | 1 | | |
| | | Orthopedics | |
| Trauma/Emergency Medicine | | - Jones Fracture | 1 |
| - Stroke | 4 | - Knee Replacement Device | 2 |
| - Traumatic Brain Injury | 5 | - Post-operative Pain | 1 |
| - Opioid Induced Nausea | 1 | | |

Total number of completed trials: 450
